

SERVICE / SUPPORT REPRESENTATIVE – Location: Montreal, Quebec

Mandel Scientific Company Inc, a leading distributor and manufacturer of scientific equipment and supplies and has an opening within the Service Department for a **Service/Support Representative** to support our rapidly growing customer base. We are seeking a highly motivated and enthusiastic candidate.

The representative will provide technical support, troubleshooting, installation & training and servicing of instrumentation including a new line of the most advanced and most sensitive Triple Quadrupole Mass Spectrometers on the market. The representative will be based in the Montreal Quebec area, but must be available to travel. (primarily the province of Quebec and Ontario).

The ideal candidate will have:

- **3 years post secondary education in a science discipline**
- **3 years work experience in an Analytical Chemistry**
- **Proficiency in working with analytical instruments (Mass Spectrometry, HPLC, Spectroscopy, Software and general lab equipment)**
- **Exceptional problem solving skills**
- **Excellent communication skills (written and verbal)**
- **Bilingual (English/French)**

We offer an exciting work environment, career advancement opportunities and attractive compensation.

Interested candidates should forward their resume by March 27th, 2015 in confidence to:
